MESSAGING

SMART. READY. TRUSTED.

The AED that leads the way

The ZOLL AED 3™ defibrillator guides rescuers through the process of performing high-quality CPR and can deliver a potentially lifesaving shock to the heart when needed. With a ZOLL AED 3 and quick action, tragedy could be averted. ZOLL's proprietary Real CPR Help® technology helps guide rescuers in performing high-quality CPR in accordance with the most recent guidelines for depth and rate of compression. The innovative, intuitive design and enhanced features of the ZOLL AED 3 will give unexpected heroes both the confidence and knowledge needed to treat sudden cardiac arrest (SCA).

The ZOLL AED 3 defibrillator provides:

- Enhanced Real CPR Help, featuring a full-color display with vivid rescue images, CPR cycle timer, and a large color bar gauge that shows CPR compression depth.
- CPR Uni-padz™ electrodes that can be used on both adult and pediatric patients, so there is no need for two separate sets of pads.
- Cloud connectivity that can automatically report AED readiness.
- 5-year shelf life for pads and batteries increases readiness and decreases frequency of maintenance.
